BLAST MACHINE

The "Trigger Happy Contractor's Choice."

Constant pressure allows for continuous blasting. Less wear and tear on air compressor, reduced fuel or power consumption and less wear of blast pot components.

AUSTRALIAN MADE

Designed and made in Australia to AS1210 using Australian Plate Steel.

CONSTANT PRESSURE

Continuous blasting, less wear and tear and reduced energy consumption.

BUILT TOUGH

Rated up to 175 psi (1200 kPa) to meet all situations.

SAFE

Rated lifting lugs to make handling and transport safer and easier.

PERFORMANCE

Valving system designed to minimise pressure drop.

TRANSPORT READY

Rated lifting lugs to make handling and transport safer and easier.

SITE READY

Forklift slots comply with Australian safety and site standards.

Specifications

Useable Garnet Capacity: 400kg
Vessel diameter: 610mm
Weight: 175kg
Length: 845mm
Width: 700mm
Height: 1330mm
Volume: 185 litres (6.5 cu ft)

Option

Pneumatic Deadman Trigger

Inclusions

Screen & Lid
Thompson II Valve
1-1/4" Auto Air Valve
20m Deadman Control Line
ECK Electric Deadman Trigger
Manual Dump with Silencer
MDR & Australian Design
Registration Certificate

Part Number

0152-2449-30
0151-2449-30

Description

Constant Pressure 2449 Blast Machine - Electric
Constant Pressure 2449 Blast Machine - Pneumatic
