

80 MESH

Premium Blasting Abrasive Product by Australian Garnet

High speed, low consumption abrasive, ideal for removing thin coatings and mil scale.

Australian Garnet 80 Mesh premium abrasive is a versatile product, ideal for new steel and fabrication. The superior mineral properties of Australian Garnet enable high productivity rates and an exceptional surface finish.

KEY PRODUCT FEATURES

- Engineered particle size distribution for optimal cutting and cleaning performance
- Ideal for removal of thin coatings and mil scale
- Creates uniform profile to suit majority of coating applications
- Low consumption with increased speed, reducing costs and waste

PRODUCT APPLICATION

- High speed, low consumption abrasive
- Removal of thin coatings and mil scale
- Removal of light rust
- Provides uniform surface profile for optimum coating adhesion

PERFORMANCE

- Average profile range: 40-60 μm
- Blasting rates: up to 35m²/hr
- Consumption rate: from 8 kg/m²

THE AUSTRALIAN GARNET DIFFERENCE

Australian Garnet has developed a state-of-the-art mining, processing, and packaging facility at our Lucky Bay Garnet Mine in Western Australia that will deliver high-quality garnet abrasives.

WORLD CLASS PROCESSING

High purity garnet abrasives with low chlorides and soluble salts that are engineered to perform.

QUALITY ASSURED

Tested at our on-site laboratory to ensure products exceed international quality standards.

SUPERIOR PERFORMANCE

Faster cleaning rates and low consumption resulting in higher productivity.
