

BURWELL NORTECH PNEUMATIC VACUUM UNITS

NORTECH PNEUMATIC VACUUM UNITS

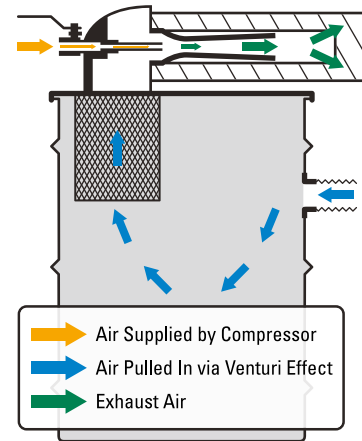

Nortech compressed air-powered vacuums offer significant advantages in performance, dependability, safety, and life-cycle cost over conventional electric-powered vacuums.

Designed to handle the toughest of cleaning jobs, Nortech Vacuums are ideal for vacuuming up chips, dust, debris, liquids or sludge. Powered by compressed air; always dependable and trouble free with no motors or moving parts to wear out, Nortech Drum Vacuums generate exceptional vacuum lift and vacuum flow while operating quietly and efficiently.

THE PNEUMATIC ADVANTAGE:

- No electricity required - operates strictly on compressed air
- Dramatically more powerful - up to 541 cm of water lift
- Always dependable - no moving parts
- Trouble free - no electric motors to burn out
- No dangerous power cords - safe in wet areas
- Extremely versatile - vacuum chips, dust, powders, and most liquids
- Quiet operation - inherently low-noise; extra silent option available
- Filtration options - standard or HEPA filtration available

NORTECH VENTURI SYSTEM

By utilising the powerful venturi effect, the result is up to five times more vacuum lift than conventional electric powered vacuums. With no motor or moving parts, Nortech vacuums offer years of trouble free operation.

NORTECH HEAVY DUTY SYSTEMS FEATURE:

- Burwell Nortech Pneumatic Vacuum Units will provide you with powerful suction capacity
- Handle most wet or dry clean-up tasks
- No moving parts or motors within the unit to have to replace
- Use of compressed air rather than electricity to provide extremely powerful suction
